

V-Launcher

Version 3.3

\$ 795 (USD)*

Why do routine VISUAL tasks manually when V-Launcher will do them automatically? Use V-Launcher for regularly scheduled processing of predefined VISUAL tasks. Once V-Launcher is configured, it automatically launches.

Benefits

- Save time and money each day by automatically launching routine VISUAL tasks
- Reduce processing delays or omissions by specifying and scheduling exact frequency and times
- Eliminate user selection errors by configuring options once and saving
- Complete turn-key solution, does not require writing any macros
- More reliable than writing custom scripts

Features

- Schedule VISUAL tasks by day, week, month, and time
- Automates the following tasks:
 - Concurrent Scheduler
 - Costing Utilities
 - Inventory Valuation Report
 - Material Requirements Planning
 - Post Manufacturing Journals
- Supports both actual and standard costing
- Configurable options and preferences of each task are identical to those available in VISUAL
- Mix and match any combination of tasks to run on specified days
- Create multiple task groups for different tasks, schedules or databases
- Generates an audit log file
- Does not use client license until automated tasks are launched
- Password deterrent to prevent unauthorized shutdown
